SUMMARY

Front-end web developer and open-source enthusiast with love for clean code and accessible design. Pair-programming and remote work. Fluent in multiple languages, frameworks, and technologies, and capable of ramping up quickly and efficiently and mentoring junior student developers.

SKILLS

Front-End: JavaScript, React, Redux, Ruby, Ruby on Rails, HTML5, CSS3

Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, TDD, Chrome Dev Tools

Professional: Remote Pair-Programming, Teamwork, Mentoring, Code Reviewer

EXPERIENCE

Remote

Full-stack Web Developer

January 2022 - Present

Movie Shows <u>repo link</u>— This application displays a list of movies. The user is able to like any of the movies, and also read more about each movie. Also, the user is able to leave a comment about any of the movies.

• Built with: (JavaScript, HTML5, CSS3, Webpack)

Math Magicians repo link—"Math magicians" is a website for all fans of mathematics. It is a Single Page App (SPA) that allows users to make simple calculations and read random math-related quotes.

Built with: (React, JavaScript, CSS3, Webpack)

Leaderboard Live demo link— The leaderboard website displays scores submitted by different players. It also allows you to submit your score. All data is preserved thanks to the external Leaderboard API service.

Built with: (JavaScript, HTML5, CSS3, API)

MICROVERSE Remote

Mentor (Volunteer)

February 2022 - Present

- As a mentor, I am assigned mentees to get them started in normal daily life as a Microverse student.
- I am also responsible for ensuring that my mentees get the answers to any technical questions they may have throughout the Microverse program. This includes checking in with them once a week to make sure they are still motivated and able to complete their work on time.
- I can practice my communication and problem-solving skills, and we all learn from each other both ways.

Code Reviewer(Part-time job)

• As a code reviewer, I help the student to review their code and give them some advice to improve their projects

EDUCATION

MICROVERSE

January 2022 - July 2022

Remote Full-stack Web Development Program, Full Time(In Progress)

- I spent 50+ hours per week mastering algorithms, data structures, and full-stack development while simultaneously developing projects with JavaScript, React, and Redux.
- I develop skills in remote pair-programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

KIGALI INDEPENDENT UNIVERSITY

October 2018 - November 2021

Degree in Electronics and Telecommunication

• I spent 3 years acquiring knowledge in electronics and telecommunications, namely how electronic devices

- work and communication works.
- By doing electronics studies and my final year project, "Coins Sorting Machine with Arduino" I developed a
 sense of thinking about more complex problems which concern the society in which we live and of finding
 solutions to these problems.
